

GANAPATI BHAT

Head of Indirect Material Purchase

 (+91) 997-215-3504

 ganapatib@yahoo.com | gana.bhat1976@gmail.com

A highly accomplished and results-driven **procurement and supply chain management professional**, seeking to leverage over 24 years of experience in **global sourcing, vendor development, and strategic procurement** to drive **operational excellence and cost optimization**. Aiming to contribute to the strategic growth of an organization by utilizing expertise in **cost management, process automation, team leadership, and fostering long-term vendor relationships**. Committed to **enhancing procurement functions, implementing innovative solutions, and driving efficiency** across the supply chain to deliver sustainable business results.

 Education & Credentials

 **BE (Manufacturing Engineering)** | Bangalore University

 Core Competencies

Supply Chain Management & Strategic Procurement	Vendor Development & Evaluation
Global Sourcing & Contract Negotiation	Cost Optimization & Budgeting
Indirect Material Procurement & Category Management	Procurement Automation & Process Transparency
Compliance & Risk Mitigation	Lean Procurement & Operational Efficiency
Robotic Process Automation (RPA)	Client Relationship Management
Strategic Sourcing & Cost Control	Inventory Management & Supply Chain Optimization
Energy Cost Optimization & Sustainability Initiatives	Technology Integration & Procurement Innovation

 Profile Summary

- Possesses distinguished experience in **supply chain management**, strategic procurement, vendor development, and global sourcing across multifaceted industries.
- Demonstrates a proven track record in **elevating procurement operations** from transactional to strategic, achieving substantial cost efficiencies and fostering sustainable organizational growth.
- Proficient in **orchestrating complex global sourcing initiatives**, negotiating high-stakes contracts, and cultivating robust vendor relationships, with an emphasis on compliance and cost optimization.
- Adept at **overseeing indirect procurement portfolios** encompassing equipment, logistics, IT services, and facilities management, managing an annual procurement spend exceeding €100M.
- Recognized for **delivering transformative cost reduction strategies**, leveraging innovative methodologies, process automation, and lean supply chain practices.
- Exemplifies exceptional leadership in **steering cross-functional teams**, cultivating a culture of agility, and preparing high-performing teams to address business exigencies.
- Expertise in **deploying advanced procurement technologies**, including robotic process automation (RPA) and digital tools, to streamline operations and enhance productivity.
- Skilled in the **development and optimization of vendor ecosystems**, ensuring alignment with strategic organizational objectives and long-term visions.
- Collaborates seamlessly with **global and local stakeholders** to drive strategic initiatives, execute high-impact sourcing projects, and facilitate organizational change management.
- Committed to **promoting transparency, upholding regulatory compliance**, and exceeding stakeholder expectations through meticulous planning and execution.

 Career Timeline

 Work Experience

 March 2015 – February 2025 | Continental Automotive Components India Ltd., India | Head of Indirect Material Purchase

KEY RESULT AREAS:

- Overseeing procurement of non-production materials and services (e.g., equipment, MRO, logistics, IT, insurance, events, training, energy, packaging, contractual manpower, and facility services), while managing a PVO of 100 M EUR annually as the India coordinator for all locations.
- Developing cost optimization strategies and leading volume-driven negotiations, guiding a team of 10 members across two locations, and advocating for local sourcing from both local & global vendors.

- Ensuring process transparency, compliance, customer satisfaction, and implementing cost-saving initiatives to drive financial efficiency.
- Optimizing energy costs through Power Purchase Agreements (PPA) and managing carve-out and integration processes of entities.
- Spearheading the adoption of purchasing automation and RPA solutions to reduce lead times, while nurturing relationships with customers and suppliers across the value chain to achieve operational excellence.
- Defining the direction for the Sourcing Department, identifying business opportunities, formulating strategic plans, and managing agreements while liaising with stakeholders to recommend best value strategies.
- Collaborating globally with stakeholders on sourcing projects, negotiations, and change management initiatives, building a team to address critical business needs and preparing for future requirements.
- Cultivating an agile mindset throughout the entire process chain to enhance adaptability and efficiency.

➤ June 2010 - February 2015 | Continental Automotive Components India Ltd., India | Sr. Manager - Category Stamping for ASEAN

KEY RESULT AREAS:

- Directed suppliers in the ASEAN region for the stamping category, overseeing supplier selection, costing and price negotiations, and budgeting based on raw material trends.
- Formulated pricing plans for suppliers, gathered data for the annual pricing agreement, and collaborated with SQM for new supplier qualification.
- Created category strategy papers aligned with future business requirements and developed a supplier matrix for outsourcing.
- Supplier management, White spot analysis, new supplier introduction, supplier portfolio management
- Annual price negotiation and cost reduction

➤ February 2004 - March 2010 | Otis Elevators Company (I) Ltd., Bangalore | Assistant Manager Strategic Sourcing

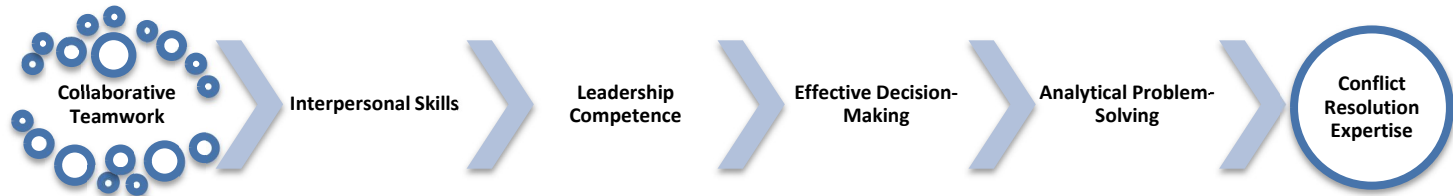

KEY RESULT AREAS:

- Recognized raw material price variations and identified cost reduction opportunities, managing price finalization for commodities and parts, importing components from multiple countries, and preparing vendor ratings while negotiating prices for new components.
- Supported customer service by establishing processes to eliminate field complaints and address material requirements through FTR and AMT, while applying the ACE methodology for mistake-proofing solutions and assisting in vendor development with Q+ Audit and supplier audit support.
- Contributed to part development, lean manufacturing, and designed part quality check sheets (PQCS – UTC Method), jigs, fixtures, moulding tools, and press tools.
- Participated as a core team member in the global Cost Benchmarking Event 2005, implementing new projects derived from benchmarking and playing a key role in the introduction of the MRL and Gen2 elevators.
- Led Q+ audits and trained teams on 3P (Production Preparation Process), achieving annualized cost reductions of INR 20 million in 2009 and maintaining a continuous 5% reduction in product costs over three years.
